

Everything you need from fax with all the benefits of email

Move away from the hassle of conventional faxing with Ricoh's Hosted Fax solution. This cost-efficient service enables easy, secure internet faxing direct from a user-friendly interface on your Multifunctional product (MFP) or via your desktop. Ricoh Hosted Fax offers businesses the total simplicity and reassurance of sending, receiving and managing faxes just like email.

Ricoh's solution will reduce your fax costs with tailored web-based packages and give you reliable, trackable faxing for peace of mind. Using converged internet fax technology, it eliminates bottlenecks by allowing faxes to be sent and received simultaneously, so you will never need to miss an important fax again. Ricoh Hosted Fax integrates with your email system to make internet faxing an easy and flexible addition to your digital workflow. This comprehensive hosted service offers secure access to your own customer area where you can verify transmission and reception, and search your fax archive electronically.

Our Hosted Fax technology avoids the upgrade problems that characterize traditional telecoms and frees you from the constraints of dedicated servers and systems. It requires minimal installation and administration, and offers significant savings on call charges. Ricoh's simplified interface makes web-based faxing easy, direct from the MFP control panel or via a few desktop clicks.

Faxing is as easy as emailing via your MFP or desktop

- Minimise capital investment and reduce fax call charges with a hosted fax service
- Integrating faxing into your email workflow means you never need to miss a fax
- Send and receive faxes simultaneously by email
- Simplified MFP GUI makes faxing easier than ever before

Total simplicity

Many of today's businesses still rely heavily on conventional fax to transmit large volumes of legal, contractual and general documents. Ricoh Hosted Fax, with its simplified Graphical User Interface (GUI) and LDAP directory access at the MFP control panel, accelerates the process and makes sending and receiving faxes as fast and easy as emailing.

Security and peace of mind

This streamlined service protects user privacy by routing incoming faxes direct to personal email boxes, eliminating the security risk of sensitive documents stacking up at fax machines or falling into the wrong hands. Users can view and verify fax traffic in much the same way as emails, by logging into the administration portal. In their secure customer area they can manage faxes in compliance with the company's normal IT policies and keep their fax archive safely backed up on a secure server.

Delivering expert document management

Take control of your documents with Ricoh's Office Solutions. We enable businesses to make smart decisions based on our professional knowledge and experience. Integrating our advanced hardware, software and services, we offer customers a solution that is more productive than ever before, delivering tangible cost, security and performance benefits. The result is a document environment designed to improve business agility and help move your ideas forward.

Ricoh knows that investment in technology driven solutions is essential to deliver enhanced customer value. As a leading manufacturer of digital office equipment for the business market Ricoh has built one of the industry's most extensive and direct global sales and support networks, providing cutting-edge products and services that exceed our customers' expectations.

Reduce fax costs

Our Hosted Fax solution reduces call charges by integrating them into internet service costs. It saves the cost of a dedicated fax server and enables businesses to replace expensive line rentals and telephony charges with attractive tailored packages. There are no hidden charges for maintenance, capacity or upgrades; the service offers complete visibility of costs.

Streamlined productivity

This high-value, hosted solution frees up IT resources to concentrate on core tasks. It dramatically reduces paper handling and saves time by routing the right documents to the right teams and individuals. Ricoh Hosted Fax will integrate seamlessly with your desktop and email, allowing easy attachment of multiple file types for efficient and highly productive internet faxing.
